

Workshop Engineer Preparation Centre, Corby

In order to continue the growth of our customer base and provide additional support to our service operations we are recruiting for the role of Workshop Engineer. Reporting to the Workshop Manager at our Preparation centre in Corby, the criteria for the right person is as follows:

Based in our workshop, you will carry out the preparation of new equipment and refurbishment of used equipment to meet the customer's requirements. To complete repairs and specification changes of new & used equipment. Ensuring best practice with quality and professionalism are met at all times.

Candidate Attributes:

- Ability to liaise with personnel of all levels – good communication skills is essential.
- Ability to work on own initiative and prioritise workload of the department.
- Ability to work under pressure to meet deadlines.
- Excellent attention to detail with regards to quality standards

CORE ACTIVITIES:

- Inspect trucks coming into the depot and in conjunction with the Workshop Manager carry out all agreed repairs.
- To ensure that all completed trucks are correctly inspected prior to leaving the depot and that there is a valid LOLER Inspection.
- To identify any damage on trucks coming off hire advising the Workshop Manager promptly.
- To inspect trucks coming off hire that are not due to go back into service advising the Workshop Manager of any faults on the machine and an approximate time it would take to rectify.
- To keep non-utilised/recoverable time to a minimum by liaising closely with the Workshop Manager and planning workload.
- Submit detailed parts requisitions, providing all information required for the computer job records and ensuring the correct parts are ordered accurately and on a timely basis.
- To work mostly without supervision by using own initiative, and to maintain Impact Handling standards of quality at all times.
- To ensure that any defective tooling or equipment is brought to the immediate attention of the Workshop Manager or Depot Manager.
- Project a good image of yourself and Impact Handling to the customer at all times, always wearing your supplied company uniform.
- Ensure that all documentation (including completed job sheets, time sheets, etc.) are fully completed as instructed and adhere to ISO9001:2000 procedure.
- Keep work area clean, tidy and organised in accordance with ISO14001 standards.
- Ensure that all documentation is passed to the service department promptly.
- Always work safely in accordance with the Impact Handling Safe Working Practice and H&S standards.

If you believe you have the necessary skills to fulfil this role please apply in writing with a copy of your current CV marked 'Strictly Addressee Only' to **Glynn Holland, Equipment Preparation Manager at Corby** or email to Glynn.Holland@impact-handling.com.
