

Role: Senior Engineer

Location: Doncaster

Values - Senior Engineer – Materials Handling

At Impact Handling our people are our most valuable asset, we are proud to recruit and train the very best in the forklift industry. Equipping them with the skills and knowledge necessary to ensure that, no matter what our customers' need, they can handle it. Our values are:

- Empowerment
- Integrity
- Pride
- Teamwork
- Respect
- Health and Safety

Position - Senior Engineer– Materials Handling

Impact Handling are actively recruiting for a senior field service engineer to work within a busy area, you will report into your local service manager and will ideally have experience working with materials handling equipment or similar.

You will be responsible for accurately diagnosing faults with machinery, servicing and emergency repairs. A typical day will consist of working on both customer and Impact Handling owned machines to ensure they are in full working order.

You will be expected to provide assistance and support in the running of the areas service operation, as senior engineer you will be expected to lead a team of engineers and help the local service manager while maintaining machinery and ensuring best practice.

Skills and Experience – Senior Engineer – Materials Handling

- A technical background from within Materials Handling or similar
- Previous senior engineer experience or similar background
- Experience working on mechanical, electrical and hydraulic systems
- Good attitude with the ability to stay motivated and productive
- A customer focused perspective and approach
- The ability to advise the engineering team on technical issues
- Carryout engineer reports to ensure best practice and continual improvement

Additional Benefits: Overtime, Vehicle, Training, Pension, Health cash plan, Life cover
