

REDUCE YOUR CARBON FOOTPRINT, YOUR WAY

At Impact, we help you make greener choices that cut both emissions and costs.

Here is our guide on steps you can take, throughout the life-cycle of your fleet, to reduce your environmental impact...

Acquire

- Consider **New, Used & Short-Term Rental**
- Latest **New** machines offer lower emissions
- **Used Equipment** reduces manufacturing impact & saves waste
- **Short-Term Rental** gives flexibility & minimises carbon emissions
- **Combining acquisition method** 'right sizes' fleets to reduce environmental impact

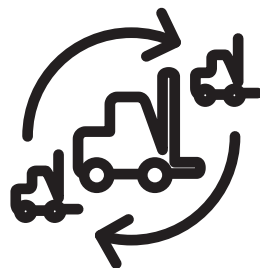

Run

- **HVO fuel** is a lower carbon alternative to diesel
- **Reducing lift and travel speeds** lowers power consumption & fuel use
- **LED lights** consume less energy & improve visibility
- **Transmission Protection Systems** reduce tyre wear and minimise dust
- **Limiting idle time** lowers fuel consumption
- **Driver training** can result in lower energy consumption

Dispose

- **Dispose responsibly** to reduce environmental impact
- **Lead acid batteries** are highly recyclable
- **Parts Salvaging:** Reuse components where possible to reduce waste
- **Buy-back, up-cycle or recycle** if you can

Re-use

- **Refurbishing** existing trucks extends their life and reduces need for new purchases
- **Recycle** machines with 'Buy-Back & Refurbishment' programmes

Maintain

- **Predictive Maintenance** minimises downtime & extends life of parts
- **Well maintained tyres** reduce rolling resistance and fuel consumption
- **Eco-friendly fluids** are available, such as biodegradable hydraulic fluids and oils
- **Battery care** and good smart charging practices extend battery life

If you'd like to know more about any of the tips in this guide or if you're ready to make smarter, greener choices for your fleet...

We can handle it.
